PROFILE

Computer Science undergraduate at the Informatics Institute of Technology (affiliated with the University of Westminster), passionate about front-end development and UI/UX design. Skilled in building responsive web applications using React, Next.js, JavaScript, HTML, CSS, and Tailwind CSS, with hands-on experience designing wireframes and high-fidelity prototypes in Axure RP and Figma. Driven by a love for crafting intuitive, visually engaging digital experiences that put the user first.

EDUCATION

Informatics Institute of Technology (IIT), Sri Lanka 2025 – Present

BSc (Hons) Computer Science – Affiliated with University of Westminster

Ilma International Girls' School Jul 2012 – May 2024

Cambridge Assessment International Education (CAIE)

- GCE O/Level: 3A* 5A (including Computer Science)
- GCE A/Level: 1A, 2B
- GCE AS-Level : 2A, 1B
- Achievements: Senior Prefect | A.Treasurer – Senior Mathematics Society | High Achievers Award (CAIE GCE OL) | IIGS Merit Award (AS-Level)

PROJECTS

AI-Enhanced Pharmacy Management System 2025 – Present

Software Development Group Project (SDGP)

- Designed wireframes and high-fidelity UI in Figma to define system structure and user flows
- Developed the backend for the e-channelling sub-feature of the WhatsApp bot using Python, FastAPI, and Twilio

- Built the doctor booking appointment page (frontend & backend) and the system landing page
- Developed frontend components for the overall system using React, Next.js, and Tailwind CSS
- Designed and implemented RESTful API endpoints across the channelling, payment, and admin modules using FastAPI
- Conducted quality assurance (QA) testing to ensure system reliability and functionality
- Collaborated in a team using GitHub for version control and code management

Technologies: Python, FastAPI, MySQL, SQLAlchemy, Pytest, Swagger, Twilio API, Next.js, React, TypeScript, Tailwind CSS, Figma

Property Listing Web Application

2025 – 2026

React Front-End Project

- Built a responsive single-page application for property search and listing using React
- Built a responsive single-page application for property search and listing using React
- Developed reusable UI components for property data rendering from JSON
- Designed interactive property detail pages with image gallery and tab navigation
- Implemented a favourites system with add/remove functionality
- Deployed the application and maintained version control with GitHub

Technologies: React, JavaScript (ES6), HTML5, CSS3

EarthCare – UX/UI High-Fidelity Prototype

2025

Figma Design Project

- Designed a high-fidelity mobile application promoting sustainable behaviour, aligned with UN Sustainable Development Goals (SDG 11 & 12)
- Created intuitive user flows for recycling tracking, volunteer event registration, and a knowledge-sharing hub

- Applied UX principles such as usability, accessibility, and cognitive load reduction to enhance user experience
- Conducted user testing using questionnaires and analysed feedback to improve design decisions

Technologies: Figma

Smart Campus Sensor & Room Management API *JAX-RS RESTful Web Service - 2026*

- Developed a production-grade REST API using JAX-RS (Jersey) and Grizzly embedded server
- Implemented room, sensor, and sensor reading management with RESTful architecture
- Applied correct HTTP semantics (201, 204, 404, 409, 422) with structured responses
- Built custom exception handling system using JAX-RS Exception Mappers
- Created logging filter for request/response tracking and performance monitoring
- Designed HATEOAS discovery endpoint with live system metadata

Technologies: Java, JAX-RS (Jersey), Grizzly HTTP Server

Personal Portfolio Website

- Frontend Development & UI/UX Project
2026
- Designed and developed a responsive personal portfolio to showcase academic and technical projects
- Built multiple project case study pages with structured UI and navigation
- Implemented modern UI design principles including spacing, hierarchy, and responsive layouts
- Deployed project using GitHub Pages

Technologies: HTML, CSS, JavaScript, GitHub Pages

LICENSES & CERTIFICATIONS

React Essential Training *Oct 2025*

LinkedIn Learning | Skills: React.js, Web Development, Front-End Development

Python GUI Development with Tkinter Apr 2025

LinkedIn Learning | Skills: Tkinter, Python (Programming Language)

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript

Frontend: React, HTML5, CSS3, Tailwind CSS, Next.js

Backend: FastAPI, JAX-RS (Jersey)

Databases: MySQL

Tools: Git, GitHub, Figma, Axure RP, VS Code, IntelliJ, ClickUp, Canva

SOFT SKILLS

Leadership | Communication | Teamwork | Problem Solving | Analytical Thinking |
Project Management | Quick Learner
